

# Scene Stealers

Streamlined vanities will lend contemporary flair to your bathroom.

BY REN MILLER

**"The neutral color and movement of the oak wood patterns give Dusky Oak a naturally weathered look, which is in high demand right now. The finish is trending not only for cabinetry but also for floors, walls, furniture, and decorative wall accents as well."**

~Peter Ollestad, Vice President of Sales  
Strasser Woodenworks

Strasser introduces Dusky Oak, a rustic yet sophisticated finish for its handcrafted wood vanities. With the look and feel of reclaimed wood, the new finish has a timeworn

appearance that's available in all Strasser vanities and is shown in the Alki Spa style, with soft-glide drawers and soft-close doors as well as cubbies, open shelving or full drawers.
