Published on October 18, 2021 by Ryan Castillo

If you feel like your bathroom is old and outdated, now may be the time to consider changing it up a bit. There are many simple ways to modernize your bathroom from installing a floating vanity to doing simple a simple shower remodel like updating your tiles or showerhead. All you need is a little legwork and imagination. To help you get started, we reached out to remodeling and design experts from Kelowna, BC to Washington, DC, to get their best tips. Among the 14 expert tips, Strasser's rose to the top.

Install a floating vanity

Wall-mounted or "floating" vanities add a sense of modern luxury to a bathroom. Whether in a powder room or a large master suite, they "float" above the floor, helping to create the illusion of more space in a bathroom. Some vanities even have a clean and minimalistic contemporary design that offers deep storage drawers that are ideal for organizing all of your bath necessities. – **Strasser**
