STRASSER

STRASSER'S SLEEK, MODERN SODO VANITY IS MORE VERSATILE AND MORE COLORFUL THAN EVER

Growing in sales by 15% a year, the European-style wall-mounted vanity delivers on buyers' increasing desire for contemporary fixtures

With contemporary European-style bath fittings and fixtures continuing to grow in popularity in the US, the SoDo vanity from STRASSER answers the call with a modern wall-mounted profile and a range of trending finishes. Boasting sleek, clean lines, the SoDo vanity offers an edgy look for strong appeal, while the wall-mounting creates an airy atmosphere of sophistication and precision. Six door styles ranging from slab to a modern miter allow for complete personalization to meet the needs of nearly any contemporary-leaning bathroom style.

SoDo's versatility is further enhanced by its 16 distinctive proprietary luxe finishes, which make for a dramatic and elegant combination. As demand for bold-yet-elegant dark hues climbs dramatically, three colors stand out this year:

- **Lapis Night:** Quickly becoming one of Strasser's most popular finishes for the So Do vanity, Lapis Night is a rich navy blue with a white undertone reminiscent of a deep ocean or moonlit night sky. Lapis Night was inspired by the distinctive blue Van Gogh used in his masterpiece, "Starry Night."

- **NW Green:** New this spring, NW Green has received the best reception of any finish in Strasser's history. Inspired by Strasser's Pacific Northwest home, this soothing color blends the many green hues found in the forest to bring the ambiance of nature indoors.

- **Dusky Oak:** This rustic yet sophisticated finish offers the soulful feel of reclaimed wood in a dark tone that ensures modern design versatility.
